

Student Marketplace Dependency Report

This document lists the project dependencies for the student-marketplace app.

Important note about installation order:

The exact historical order each package was installed is not stored in a reliable way in this repository. For presentation purposes, this report uses the current order shown in package.json, which is the most defensible order we can infer from the project files.

Install command used by this project:

```
npm install
```

Production Dependencies

These are packages the app needs to run.

1. @expo/vector-icons	^15.0.3	Icon library used in the UI and tab bar.
2. @react-navigation/bottom-tabs	^7.4.0	Bottom tab navigation for Browse, Profile, and Logout.
3. @react-navigation/elements	^2.6.3	Navigation UI helpers such as pressable elements and header helpers.
4. @react-navigation/native	^7.1.33	Core React Navigation package.
5. @react-navigation/native-stack	^7.14.4	Native stack navigation for screens like login, detail, and create listing.
6. expo	~54.0.33	Main Expo framework for building the app.
7. expo-constants	~18.0.13	Provides system and app constants.
8. expo-font	~14.0.11	Font loading support.
9. expo-haptics	~15.0.8	Haptic feedback for tab presses on iOS.
10. expo-image	~3.0.11	Image rendering support.
11. expo-linking	~8.0.11	Deep linking support.
12. expo-router	~6.0.23	File-based routing system used in the app.
13. expo-splash-screen	~31.0.13	Controls splash screen behavior.
14. expo-status-bar	~3.0.9	Customizes the device status bar.
15. expo-symbols	~1.0.8	Symbol support used by icon helpers.
16. expo-system-ui	~6.0.9	System UI customization support.
17. expo-updates	~29.0.16	Supports Expo updates and runtime versioning.
18. expo-web-browser	~15.0.10	Web browser integration support.
19. firebase	^12.10.0	Backend service for authentication and Firestore database.
20. react	19.1.0	Core React library.
21. react-dom	19.1.0	React DOM support for web builds.
22. react-native	0.81.5	Core React Native framework.
23. react-native-gesture-handler	~2.28.0	Gesture support for navigation and interactions.
24. react-native-reanimated	~4.1.1	Animation support for React Native.
25. react-native-safe-area-context	~5.6.0	Safe area handling for devices with notches and rounded corners.
26. react-native-screens	~4.16.0	Improves screen rendering and navigation.

vigation performance.		
27. react-native-web	~0.21.0	Allows the React Native app to r
un on the web.		
28. react-native-worklets	0.5.1	Supports worklet execution used
by newer animation tooling.		

Development Dependencies

These are packages mainly used for development, linting, and TypeScript support.

29. @types/react	~19.1.0	Type definitions for React.
30. eslint	^9.25.0	Linting and code quality checks.
31. eslint-config-expo	~10.0.0	Expo-specific ESLint configurati
on.		
32. typescript	~5.9.2	TypeScript compiler and type che
cking.		

Summary

Total dependencies documented: 32
 Production dependencies: 28
 Development dependencies: 4
